

Quick Links for Class Teachers

In addition to the full scheme of work and lesson PowerPoint slides, we have plenty of additional resources on the [Teacher Hub](#) to support the success of the First Give programme for your class.

We have put together links to some of the resources that we know are often underused in the classroom, in addition to some resources which are new for this year. We recommend saving this document to your desktop to access all of these links in one place.

New resources this year

✦ **Social Action Ideas Matrix**

To help your class think about how they can meaningfully link their social action to their social issue, we have created a new [PowerPoint presentation here](#) with a variety of ideas that you can use to inspire your students.

✦ **Charity contact guidance**

We know that it can feel disappointing when your class is unable to get in touch with their chosen charity. We have created a new [guidance document](#) with tips to support your class if their charity is unresponsive or not available for a meeting.

✦ **Additional activities for after Lesson 8**

Following feedback from last year, we have new activity ideas to keep students engaged and help your class prepare for the Final once all 8 lessons are complete. If you find you have time to fill, [see our suggestions here](#), including a class display board and bunting activity to enrich your students' Final presentations.

Additional links

✦ **Improved programme tracker**

We have improved our [programme tracker here](#), which provides shared space to provide updates on the progress of your class. We recommend asking your Lead Teacher to ensure that this is set up as a live document and shared with the team.

✦ **Inviting your class charity to the Final**

We know that charities who have engaged well with your class love to attend the Final to celebrate their success! For guidance on inviting a charity representative along to the event, [see the guidance here](#) and [email template here](#).

✦ **"What Does Good Look Like?": Exemplar presentations**

We have a range exemplar First Give presentations to inspire your students. [See the videos here](#) for inspiration on how students can make their presentations creative, impactful, and give them the best chance of success at the Final.
